

POOL & SPA, INC.

Custom In-Ground Swimming Pools

Rendezvous Spa Maintenance

Bring in your water to be tested once a week by our trained professionals to help prevent costly problems. Do not trust home test kits.

My spa is _____ gallons.

Bromine/Activate Weekly Maintenance

Step 1: Bring in water sample to check pH, Total Alkalinity, Chlorine, and TDS levels.

Step 2: Add _____ oz. **Rendezvous Brominating Tablets**, concentrated source of active bromine and dissolves evenly in spa feeders and floaters.

Step 3: Add _____ oz. **Rendezvous Activate**, “activates” bromide solution to work as a shock oxidizer that destroys contaminants. **(2oz. per 250 gallons)**

Step 4: Add _____ oz. **Rendezvous Protect Plus**, prevents stain and scale from forming on surfaces. **(2oz. per 250 gallons)**

Enhance/Activate Weekly Maintenance

Step 1: Bring in water sample to check pH, Total Alkalinity, Chlorine, and TDS levels.

Step 2: Add _____ oz. **Rendezvous Enhance**, part of the two-part system (Enhance/Activate) that is chlorine free sanitizes. **(4oz. per 250 gallons)**

Step 3: Add _____ oz. **Rendezvous Activate**, “activates” bromide solution to work as a shock oxidizer that destroys contaminants. **(2oz. per 250 gallons)**

Step 4: Add _____ oz. **Rendezvous Protect Plus**, prevents stain and scale from forming on surfaces. **(2oz. per 250 gallons)**

Remember, an ounce of prevention is worth a pound of cure. Call us with any questions or visit our website to find more pool care and maintenance tips.
